Trans fat: At Jet's Pizza, all products and ingredients are trans fat free.

Peanuts or tree nuts: Jet's Pizza does not use or add any peanut or nut products. Peanuts and tree nuts may be used in common manufacturing plants. There is a possibility of cross contamination in Jet's Pizza locations which sell ice cream. Ice cream toppings may contain allergens. Jet's Pizza does not provide packets of slivered nuts to include on their salads.

Some of Jet's products may have cross contamination based on manufacturing or packaging plants

****Processed in facility that uses eggs and soy**

***Packaged in facility that packages tree nuts**

Disclaimer: Allergen information displayed on this site is base on standard product formulations. Variations may occur due to differences in supplier ingredients or substitutions, recipe revisions, and product production at the pizzerias.
